Coach Information

The Easton Complex was built for Baseball, Football and Archery. Guess what they have some trails so we are holding a cross country meet there. Why you ask? Because it is high and dry so it was the best option we had.

Athletes Information

Course

The course starts off in a retention pond that never retains water! You will then run a short loop around the retention pond and into the wooded trails. Most of the race is in the trails and then you pop out of the woods for a 150 meter sprint to the finish down the football field. The course is 20% grass 80% trails.

Individual Awards

Since this is last minute we do not have the normal custom individual medals that you are use to with a B3R Sports event. As of now there are not going to be any individual awards. If time permits I will try to find something but no guarantees

Instant results as you finish

Half-Mile Timing will be timing. As of now I cannot guarantee any video boards. But we will try to have a finish line board scrolling names and a run clock at the finish.

Team Awards

I will try to get some team awards made between now and the event but I cannot promise those either.

Custom Mile Markers

All 3 mile markers will be 8' tall so you can see them. I will have mile markers and meter markers on the course.
