

January 10th 2021

Format

Practice- There will be 2 hours of practice starts at 2pm. We will practice by class; each class will get a 10 minutes block with a 1-minute transition between classes.

Seeding- After we get all the entries in, we will set 10 minutes for each class. Each racer will get 10 laps best lap will determine which heat race you will start in.

Heat- You will run 1 heat race to determine which main race you will start in. Depending on how many heat races are in each class will determine how many make it into the A-Main race from their heat. Each heat race will be 30 laps.

Mains- Each main race will consist of 6 cars with 2 cars advancing to the next main race until the B-Main. The B-Main will advance 4 cars into the World 100 which will consist of 10 cars. Lower mains will be 30 lap races with the B-Main being 50 laps.

The top 6 qualifiers from the heat race will get a 10-minute practice session before the World 100.

World 100 Race- The race will be conducted in two 50 lap sections. After the first 50 laps racers will be allowed to work on their cars and switch batteries.

Red Flags- If you spin out, get straightened out and keep racing. If you get stuck in the wall or flip upside down and cannot get going again. It is your job to yell stop loud enough for everyone to hear. We will have an announcer to help with that, but it still relies on you. Our Announcer will give the command to restart. We also have red and green lights around the track to help with a visual stop and go.

Rules

All cars are subject to tech after the races. We will allow non 1RC Racing RX/TX. Everything else must be a 1RC Racing product. Midgets will run the 4 cell batteries, EDM, Sprint Cars & Silver Crown will run 5 cell batteries, 8700KV motors only. Rear axle gears must run the stock gears.

Cost

1st Class \$20

2nd Class \$10

3rd Class \$10
